

AT DRUM TRACKS

THE PROCESS

Send me your song with or without a drum part. An MP3 is fine. Include all requirements/ ideas/references to other tracks etc. Please also let me know the tempo. Once this has all been received I can give you an exact cost and schedule. Please note a fifty percent deposit is required before any recording takes place.

You are welcome to join me at the studio for the recording process if you wish for your input and ideas.

Once I've recorded the track I'll send you a stereo MP3 for you to check and approve. When approval has been made the final fifty percent payment will be required. Once this has been received I will send over the separate drum tracks to you.

I will discuss with you the general purpose for the tracks and where needed consent / release and PPL forms will be signed. Credits must be given on all liner notes for the recordings.

Please feel free to call or email with any questions you have about this process.
